

October 8, 2011–April 22, 2012

Shaped by Water

Past, Present & Future

Shaped by Water Past, Present & Future

Water shaped the history of Santa Clara Valley, and how we use it will shape our future. Come experience and learn about our unique connection to our precious and finite water - past, present, and future. Through photographs, art, stories, and interactive activities for kids of all ages, visitors will leave with a greater understanding of the role water plays in our lives - and with resources and ideas for action! Expand your appreciation of water through an inspiring slate of educational programs and events that are scheduled throughout the course of the exhibition.

Please visit our website frequently at www.losaltoshistory.org for ongoing information and the latest updates to exhibition programming.

www.losaltoshistory.org
